Website Advantages
Online Catalog & Contract Portals

One of the many advantages of working with Bluum is easy access to our always-current MSRP catalog at https://customer.trox.com/products.htm (new Bluum ecommerce site coming soon!) and our exclusive customer contract portal through https://www.bluum.com .

Bluum's unique customer web portals offer a secure, password-protected, and customized web site that provides:

- A comprehensive database of products with model numbers, pictures, specifications and pricing maintained by our manufacturers.
- Custom pricing that shows manufacturer-provided list prices, your established contract price, and the percent and total dollar savings on each item.
- On-line search capabilities with product descriptions, product images, and specifications on current products.
- Updated product information for selected contract including delisting of discontinued product and the addition of new product with the same discount structure as the original bid.
- Administrative functions in real time that allow you to research and track orders, access open order and purchase history reports, reprint invoices, and develop usage reports.
- The ability for all users to access pricing information and construct quotes for approval or budgeting purposes.
- Contact list for easy reference.

Even without a login, you can view up-to-date Manufacturer List Prices for our entire catalog at https://customer.trox.com/products.htm.

Accessing your unique customer portal is easy!
Simply go to https://www.bluum.com, click on the 'Sign In' heading, then enter your email address, customer number and password. From there, select the "Products/Purchasing" menu and search by product category, brand or model number for any item on our bid proposal.

It's a convenient and efficient way to check pricing and discounts available on all of our product lines and view the most aggressive discounts available to all participating entities.

Contact your Bluum Account Executive with any questions and to get your contract set up.

Types of Products & Services

Audio Visual & Technology Equipment, Supplies, & Services

Product and Services Offerings:

Bluum provides a comprehensive portfolio of audio visual and technology solutions and services representing hundreds of leading manufacturers. Bluum can also provide design and installation services.

Bluum Product Categories Include:

Classroom and presentation technologies including projection devices, flat panel displays, mobile learning/1:1 solutions, interactive teaching tools, classroom amplification, control systems, digital signage, videoconferencing, traditional AV equipment, professional installation and training services.

Technology Products and Installation

- Projectors LCD/DLP/LED Technology
- Mobile Learning Solutions/1:1 (Chromebooks, Laptops, Tablets, Charging Carts, etc)

Traditional Audio Visual Products

- Digital Cameras
- Camcorders
- Broadcast Equipment & Video Editing Systems
- Flat Panel TVs, DVD/VCR Combos
- Classroom Tape Recorders, CD Players & Recorders

- Projectors
- AV Carts & Mounts for TV's, Projectors, etc.
- Public Address (PA) Systems
- CCTV Security Systems

Please visit www.bluum.com or contact your Account Executive for a complete listing.

Service, Warranty, & Repairs

Bluum is passionate about serving its customers regardless of the size, location, or project. As a proven partner, we strive to deliver excellence. To facilitate service, warranty, and repair, Bluum's customers can reach our customer service department at 1-844-MY-BLUUM Option #2. This service is available for products both in and out of the warranty period, based on the manufacturer's guidelines. You can also get in touch with us by e-mail at service@bluum.com.

Our Customer Service department is available Monday through Friday from 8:00 a.m. to 7:00 p.m. (EST). Bluum Customer Service Representatives are A+ certified, equipped to handle technical hardware support, repair, transportation, sales order statuses and warranty/service-related issues.

In addition to our Customer Service team, Bluum has a sales representative dedicated to you and your area. Your Account Executive has the authority to work with you to help expedite the repair process.

We are committed to improving the customer experience by measuring our performance and soliciting feedback from our clients and adjusting their goals best suited to their needs.

Measured Feedback and Support

- Cases are promptly entered into our database upon receipt. The item or items are tracked based on several criteria and, using a unique flagging system, are monitored several times a day.

- We collect customer feedback after service is provided, which helps us measure the level of service provided for warranty-related issues.

- All cases are closed with some form of resolution within a reasonable amount of time.

We understand that every customer is different and has unique needs, and we are committed to working with you to become your long-term partner.

Customer Service and Support Areas

Bluum Warranty Service - End-user, individual, or department person responsible within the respective organization's guidelines can contact the Bluum Customer Service Department via phone or email. Customer must provide the original Purchase Order number or invoice number. Bluum will then arrange for either on-site service or pick up/transport within the warranty guidelines and period of the individual product in question.

Bluum Warranty Support - Units sold with Bluum warranty are eligible for return to depot repair at our facilities. Support via phone/e-mail is available for Bluum warranty units. Shipping both ways is covered by Bluum for the duration of the warranty coverage period. Packaging can also be provided if required. If units are deemed not repairable, Bluum will replace them with the same or next-generation unit.

Bluum Order Support - Bluum will assist the customers who require information on their sales order statuses and received orders. We provide information about tracking, damaged goods claim, shipping carrier claims,

and interaction with Bluum vendors for replacement/credit (should customer orders be lost or damaged during delivery).

- For self-tracking, please visit www.bluum.com or get in touch with your Account Executive.

- For orders that require direct manufacturer support wherein the customer cannot avail of the required assistance, Bluum Customer Service can assist on a case-by-case basis.

Manufacturer Warranty Repairs – Various manufacturers have different levels of initial failure policies. In such cases, Bluum will honor and implement those policies on behalf of the customer. However, if a manufacturer does not have an initial failure policy, the following will be actioned through Bluum.

- If a product fails within 15 days of invoice date, Bluum will arrange for the product to be picked up on a call tag by the appropriate shipper and return it to a Bluum facility for repair. Once repaired, Bluum will return the product to the customer. If not repairable, a replacement will be issued.

- If a product fails after 15 days of invoice date, Bluum will work with the customer and the manufacturer to facilitate a resolution.

Manufacturer Non-Warranty Repairs* – If the product falls outside the manufacturer warranty, Bluum will provide information on the closest manufacturer Warranty Center. If preferred, the customer may send the product to any one of our service centers in Phoenix, Arizona; Los Angeles, California; Dallas, Texas; St. Paul, Minnesota; or Markham, Ontario, Canada.

Return Policy** – If the product is shipped incorrectly or inappropriately by Bluum, the product will be picked up either by UPS or another freight shipper. If the customer has ordered the product incorrectly, the customer is responsible for returning it to Bluum or the manufacturer location.

*Note: Not all vendors/manufacturers can perform non-warranty repairs. Bluum will provide information on the nearest repair center as a form of non-warranty repair resolution in such a scenario.
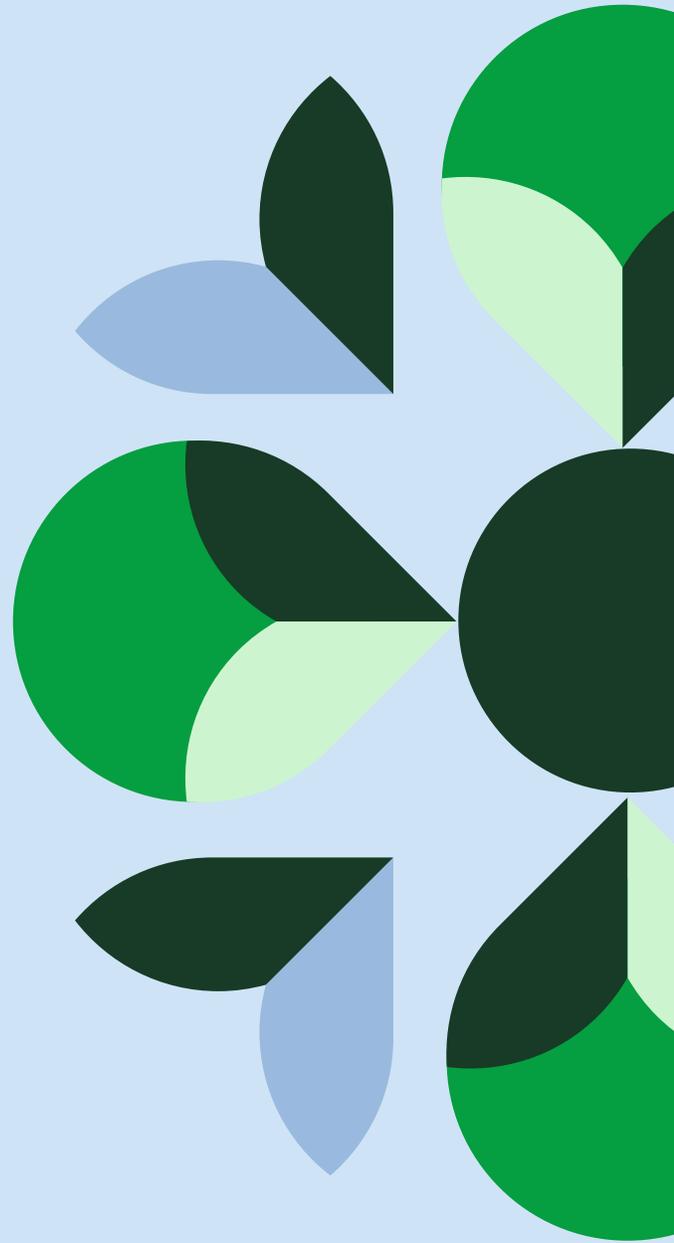

**Note: This is subject to the terms and conditions of the manufacturer.

Cultivate Possibility

With the hyper-accelerated transition to technology-enabled learning, schools are seeking deeper partnerships with solutions providers that can deliver more than just product.

Bluum knows that transformative technologies in the right hands can help foster active learning and collaboration. Our solutions are designed to empower educators, not replace them. We make it easier for them to create individualized lesson plans and learning experiences that foster a sense of inclusivity and boost the learning capabilities of all students, regardless of age or ability.

The act of 'blooming' signals a moment of transformation when the right people, knowledge and resources come together to create something greater than the sum of its parts. We help districts and schools like yours cultivate possibility, so you can bloom where you are planted.

Our Mission

To improve learning and make it more accessible.

bluum.com

How Bluum Can Help?

Pinpoint Vulnerabilities
Our certified cybersecurity experts can identify critical gaps and prioritize your roadmap to maturing your information security posture.

Define Actions
Our funding advisory experts can assist you in discovering and applying for grants to purchase solutions to close security gaps.

Build Resiliency
As cyberattacks evolve, our solutions will continue to provide ongoing protection against threats and incidents, preventing the loss of instructional time and money.

Bluum's Cybersecurity Solutions

- ## Endpoint Security

Protect end-user devices connected to a network or cloud with technologies including antivirus tools, endpoint protection platforms (EPP) and endpoint detection and response (EDR) to detect, prevent and respond to cyberattacks in real-time.

- ## Network Security

Prevent and remediate internal and external threats with next-generation firewalls, intrusion prevention, and detection and response systems designed for complete system visibility.

- ## Cloud Security

Safeguard cloud-based data and applications and protect against data loss and malicious theft with tools that elevate application visibility, security and control for hybrid learning environments.

- ## Applications Security

Detect and block threats deployed through email and the Internet with real-time protection technologies, including spam and DNS filters, encryption and antivirus.

- ## Data Protection

Keep user data secure with backup and recovery software for the cloud for on-premises and hybrid learning environments and backup-as-a-service (BaaS) solutions.

- ## User Training

Awareness and compliance training for students and staff to improve cybersecurity hygiene and reduce phishing and social engineering attacks.

Professional and Managed Services

- ## Security Posture Assessment and Advisory

A self-evaluation of your organization's tools, processes and people against major cybersecurity areas followed by personalized consultation for actionable insights.

- ## K-12 Cyber Hygiene Fundamentals Workshop

In this 60–90-minute workshop, we'll explore what cybersecurity means for schools, define best practices and learn how to stay ahead of the curve in protecting assets, students and staff from cyber threats.

- ## Vulnerability and Web Application Scanning

A scanning and identification service to inspect the critical infrastructure for looming security risks, with recommendations to improve your security posture and protect against ransomware attacks.

- ## Penetration Testing

A cyberattack simulation performed by a certified ethical hacker to provide deep insights into vulnerabilities and prevent breaches.

- ## 24 x 7 x 365 Human-Led Monitoring, Detection and Response

A team of incident response (IR) analysts is available 24/7/365 to take targeted actions on your behalf to neutralize any threats.

- ## As-a-Service Programs

Comprehensive solutions to support customers who need additional support, including ongoing backup, phishing simulation-as-a-service, monitoring and patching, and a virtual help desk.

- ## Remediation Services

Real-time identification of the cause of an attack, halting attacks in progress, securing data and helping your organization implement changes to strengthen cybersecurity posture and prevent future attacks.

Over 40 years of experience in the education sector has taught us that the right technology can broaden student access to learning and ease the burden on educators and students by creating effective learning environments in any setting.

You sow the ground for lifelong learning. Bluum helps you cultivate it.

Experience

With technology and education in our DNA, our 900+ employees are committed to helping educators improve learning outcomes. Nearly 40 years of providing technology and services to educators and students have helped us master services requiring higher and more specialized skills at the level of experience unmatched by other companies.

Portfolio

Bluum offers one of the largest and most comprehensive technology portfolios available – more than one million products from over 800 industry-leading manufacturers and service providers.

Scale & Agility

We have made significant investments in our business to scale our customers' needs. This includes creating more exclusive and innovative solutions, increasing our coverage model across North America, and improving our negotiating ability with vendors. All enable us to have more meaningful discussions with customers about how to solve their challenges.

Integration Capabilities

Our pedigree contains deep technical knowledge and expert-level collaborative technology design and integration services. This gives us the ability to plan and execute on high-end, complex technology projects and offer integration services anywhere in the U.S.

Services

Bluum offers a complete suite of education-specific services including design, pre-deployment white glove support, warranty and damage protection, flexible and scalable financial programs, grant writing, IT asset disposition (ITAD), product lifecycle management, and post-deployment sales and technical support.

Single Solutions Provider

Bluum provides more brands, improved buying power, better support infrastructure, expanded services and better pricing to help maximize technology investments and improve purchasing efficiencies.

Our portfolio of products, solutions, and services is hand-picked to ensure that you and your students grow and flourish. Educators love how well our technology solutions complement their curriculum, and students are more engaged than ever.
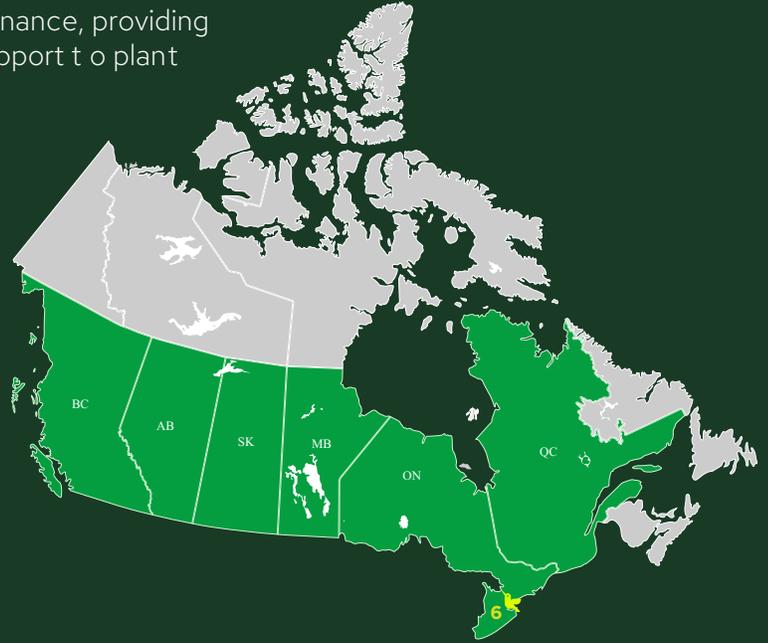

ABOUT US

The world moves fast. With Bluum, it's easy to set the pace.

We're by your side from consultation through maintenance, providing the resources, guidance, information, training and support to plant confidence in every educator and every classroom.

bluum™

Bluum (formerly Trox + Tierney) has been helping educators improve learning and make it more accessible for over 40 years.

With a solid understanding of how technology can be leveraged to enhance productivity, efficiency and engagement, our team can help you derive the greatest benefits from and maximize the overall value of your technology investments.

From consultation and purchase to installation and training, we work side-by-side with you to create modern learning environments that inspire learners and enable better learning outcomes. We are confident that we can provide the right mix of expertise, products and services to effectively support your needs, now and in the future.

If you need more information, please contact us at 1-844-MY-BLUUM or at customerservice@bluum.com. If you need additional perspective on how we work with our customers, we'd be happy to connect you with some references.

We look forward to partnering with you to spark the next generation of learning.

SHIELD℠ Protection Program Plans

Enhanced Protection for Laptops and Chromebooks

With the recent implementation of remote and hybrid learning environments, thousands of devices are now in transit between schools and student homes. This is driving an increase in accidental damage to devices. Combine that with a national laptop shortage and Technology departments are suddenly under an immense amount of pressure to keep working devices in circulation. What they need is a SHIELD.

The SHIELD℠ Protection Program offers one of the best coverage plans in the industry. SHIELD acts as an extension of the original manufacturer (OEM) warranty and includes accidental damage protection. Bluum coordinates all repair services on behalf of the purchaser for devices covered under the original OEM warranty. This provides convenience and peace of mind for tech and IT teams who are already busy with multiple demands for their time.

PROGRAM FEATURES & BENEFITS

Set up and deployment provided by Bluum

Repairs done in 10 days plus shipping time*

Free shipping to and from school location

Single and multi-device packaging included

24/7 access to SHIELD Customer Service Portal

Zero cost of ownership guarantee (no deductibles or fees)

Repair time subject to parts availability.

What is a fab lab? A fab lab or fabrication lab is a place where students can design and create innovative projects and products. Fab labs are a great place to spark creativity, engage students in career & technical skills and meet learning goals with hands-on projects. Let Bluum design your Fab Lab from start to finish with consultations, product recommendations and professional development.
